Sad / Happy

Alphabet:

S & T

They will learn to write, draw pictures, paint, count, make new friends, and so much more. Our staff will work hard to build trust, foster independence, self-control, and encourage respect for feelings and rights of others.

Families will also have a chance to learn and grow through the activities planned for them such as family night, newsletter articles, and trainings. There will be opportunities for parents to participate in leadership positions such as serving on the Policy Council, parent committees, and/or advisory committees.

Parents are encouraged to take an active role in their child's education and that can be done through volunteering in the classroom, serving on the committees, educational home visits, and parent/teacher conferences. We have an "Open Door Policy". Parents are welcome anytime.

This experience will be truly a "head start" in the preparation of entering the public school system. Our mission is: Investing in Children today for a better tomorrow.

The staff at Tri-County Head Start is anticipating an exciting year. We look forward to working with our children and their families. Our program will be using Creative Curriculum as the curriculum in the classroom. There will be many opportunities for the children to learn and grow as they experience the exciting things that have been planned for them this year.
