**Spring Checkpoints due at the beginning of the month – 7/14/24.
Complete all 2nd Parent Conferences**

Requirements:

Each month you have a set of expected and specific pieces of documentation that must be captured, documented, assessed, and inputted into Teaching Strategies GOLD for each child in your classroom. At each parent conference or meeting held at the center, you will use these pieces of documentation to share individual and specific progress with each child's family. You will share the picture/video/audio progressions digitally just as you would a portfolio work sample with the child's family. This does not replace all other documentation; that still must be completed. This only replaces the child's physical portfolio. Keep in mind that there are 38 Objectives/dimensions that need observing, documentation, assessment, and inputted into Teaching Strategies GOLD. This is only a portion of them. You still need to reach 100% on your documentation by the end of each checkpoint. Just as your portfolios were monitored, so will this specific documentation. As you are implementing your Intentional Teaching Experiences, Mighty Minutes, and Book Conversation Cards; use these opportunities to capture these specific moments in the specified manner. This is an effort designed by the Tri-County Head Start/Early Head Start Education Team and our Creative Curriculum Trainer (Mrs. Carol) to help alleviate "extra" activities, so that you can focus solely on Creative Curriculum Fidelity, Teaching Strategies GOLD documentation and assessment. *Pre-Writing samples are gathered monthly. A sample may consist of any attempts to write/draw or documentation of activities like finger painting, writing in the sand with fingers/sticks/tools, etc. The documentation may be the writing sample, art sample or photograph of the child actively engaged in the activity. *Pre-Writing Samples (Toddlers ONLY)
